December 2011

Figure 1 Greenview Illinois Main Street 1913

The first building on the lower right was the Downey hardware building for this time period of 1913. Does anyone know what businesses were in the other buildings going south from the Downey hardware building? Please be specific as to what building you are referring to. For example: the third building south of the Downey building was ??????. Your correct responses will be published on the website. Please remember we are still in development and responses may take a little time to publish.

This picture shows the Greenview First State Bank and a couple of other buildings. Does anyone know what businesses were in the other buildings going east from the bank building? Please be specific as to what building you are referring to. For example: the first building east of bank building was ??????. Your correct responses will be published on the website. Please remember we are still in development and responses may take a little time to publish. There were several businesses in the bank building can you name them and the dates they were there. Also, the other buildings had several businesses or functions over the years can you name them and the years. There were more buildings east can you name what businesses were in them or do you have pictures that show all of the buildings. What businesses were in the location before the Greenview First State Bank building were built. Notice the clock and street signs.
